

K\_LOVE serves me as a resident of the local community because it allows me to listen to music that is not vulgar or violent, but uplifting! If K-LOVE were to be replaced by LPFM or any other programming it would have an impact on my children and my grandchildren and my life. My children and grandchildren sing along with all the Christian songs and I believe K-LOVE promotes positive behavior and not destructive/sexual behavior like the secular music does. I believe more Christian music should be played to promote what this country was founded on "GOD".
